*The first part of this sale is records from a dealer's stock that have been in storage for 50 years. Most never played and have that beautiful crisp, detailed sound that comes only from records that have never had a steel needle (or heavy Caliphate). Some have slight graining and will be graded E or E- but they still have that beautiful detailed sound... Most are West Coast pressings and most need some cleaning.*

**MIN: US \$75 unless otherwise noted. Packing and Post additional.**
